Group 1 WhatsApp Meeting notes

[10/08, 14:26] +44 7872 680454: Thanks Asma

[10/08, 14:26] +44 7547 897138: No problem

[10/08, 14:27] +44 7872 680454: I think there's one more person remaining

[10/08, 14:30] +44 7547 897138: I'll check. He hasn't contacted yet.

[10/08, 15:34] +971 54 566 3377: Hi all

[10/08, 18:09] +44 7547 897138: Hi

[10/08, 18:39] +44 7872 680454: So guys what's the plan with the assignment. Have you guys gone through it yet? And how do we do our meetings and times?

[10/08, 19:44] +44 7547 897138: So, what exactly do we need to plan, and how are we going to do it? Everyone should give their point of view and ideas.

[10/08, 20:01] +44 7872 680454: I think we should start by picking a day and time that's convenient for everyone to regroup and discuss our findings.

Meanwhile before then, everyone needs to research on the assignment and bring their points forward.

We also need to assign roles too like split the assignment into 4 parts and everyone works on their path and others will give constructive feedbacks and suggestions too.

I will suggest Friday evening but open to suggestions too

[11/08, 01:27] +971 54 566 3377: Hi All

Good morning. Proposing a suggestion to split the workload for the Assignment.

Student 1: Current State Cybersecurity Analyst (The Status Quo)

Core Task: Evaluate the vulnerabilities of the business exactly as it stands today (25% total grade weight).

Deliverables: Select a risk methodology (e.g., NIST SP 800-30 or STRIDE) and write a highly concise, academic justification for it.Map out the current physical and network threats (e.g., the front desk computer handling VAT/Tax, Harry's old networked computer, the completely unsecured open wireless gateway/hub, and staff using personal smartphones on the shop Wi-Fi).Provide immediate, low-cost mitigations for the current setup. Word Target: ~250 words.

Student 2: Digital Transformation Threat Modeler (The Future State)

Core Task: Evaluate the technical and operational risks of moving to a digital model (30% total grade weight).

Deliverables: Define the specific digitalization scope (e.g., building an e-commerce portal, launching an international supply chain system).Enumerate the cyber and operational threats introduced by these new systems (e.g., DDoS attacks on the portal, data breaches of customer payment info, server downtime).Detail technical mitigations (e.g., encryption, firewalls, secure payment gateways). Word Target: ~300 words.

Student 3: Supply Chain & Business Case Consultant

Core Task: Directly answer the business case economics and calculate the trade-offs of Orla O'dour's international expansion plan.

Deliverables: Critically analyze and answer the three specific data questions:Can an online presence realistically grow sales by 50%? Will an international supply chain cut costs by 24%, or will it introduce massive supply chain risks? (Contrast this with their current highly secure 10-minute local farm backup). Will they lose 33% of local brick-and-mortar customers if they fail to digitalize? Draft the final summary recommendation: Do you carry out the transformation? Word Target: ~300 words.

Student 4: Chief Editor, Operations Manager & Visual Designer

Core Task: Ensure the entire report reads seamlessly as a single voice, strictly manages the word count, and owns the academic rigor (25% total grade weight).

Deliverables: Write a hyper-concise Introduction and Conclusion (~150 words total). Act as the final gatekeeper for the strict 1,000-word limit. Map out the mandatory Timeline / Gantt Chart diagram showing the transition steps (visuals do not count toward the word limit). Format all Harvard citations and the final reference list (ensuring the Hancock et al., 2024 paper is integrated as required).

Let me know your thoughts

[11/08, 01:29] +971 54 566 3377: I work in Dubai but is currently stationed in Tokyo office until September. So there is considerable time difference. Once we have recieved feedback from everyone we can do an online group meeting.

[11/08, 10:31] +44 7872 680454: This is really good

[11/08, 10:31] +44 7872 680454: I'm on Uk time but flexible enough to work with everyone's time

[11/08, 11:26] +44 7547 897138: My suggestion is that we should work in a way where everyone can start their part according to their available time. Whoever wants to work on a particular task should first mention their name and the point/topic they are going to work on in the group, so that everyone knows who is working on which part.

Then, as we work on a topic, we can keep sharing our research, files, and relevant data in the WhatsApp group—for example, what we searched for, what information we found, and what our understanding or opinion is.

The advantage of this will be that whenever another member has time, they can look at the work already done, add their own input, and continue working on it.

If we wait for everyone to be available at the same time, the project will take much longer. So I think it would be better for each of us to work according to our available time and keep sharing whatever progress we make in the group. This way, we can gradually work together and complete the project and assignment.

[11/08, 13:57] +971 54 566 3377: Hi Asma

Your point is also valid. Based on what I shared, I will start with what was mentioned for student 1. If we all work for the entire assignment that willl be a lot of effort and waste of time. I will focus on the work mentioned for student 1.

i have also messaged Abinel as he is missing from the group.

[11/08, 14:44] +44 7547 897138: I'm going to focus on Student 2 – Digital Transformation Threat Modeler for the assignment.

[11/08, 16:58] +44 7872 680454: I will focus on student 3 part.

Hopefully the 4th person will join us soon. I've messaged him on the learning platform but no response yet.

[13/08, 15:17] **Abinel Madzivire**: Thanks good team for adding me to this winning group. I have no choice I am student 4.

[15/08, 15:37] +44 7872 680454: Hi guys trust everyone is well.

Regarding this does it mean you have to drop your first part and student 2 works on theirs and drop here for student 3 to pick up?

Also when is the deadline for each of us to drop our work here cos time is sadly running out

[15/08, 15:51] +44 7547 897138: Yes, I think Student 1, 2, and 3 ,4will each complete their own part and upload it here. Then one of us will need to combine all the questions and everyone's work into one proper Word file and submit it.

We should decide which student will be responsible for putting everything together.

[15/08, 15:52] +44 7872 680454: I don't mind putting everything together

[15/08, 15:52] +44 7872 680454: Yea the part I'm still confuse about is; are we submitting in sequence?

Like will student 2 wait for 1 to finish his part first?

[15/08, 15:55] +44 7547 897138: I think the tutor mentioned that in each group, for example, our group has four students, and one student from the group has to submit the work on behalf of everyone, and it will count for all of us.As far as I know, only one person has to submit it. You can check Seminar 1; I think it is mentioned there.

[15/08, 16:56] +44 7872 680454: Noo I don't mean the final submission I mean when reporting back to this group .

Should student 1 drop his research in this group first before student 2 start working on theirs?

[15/08, 18:27**] Abinel Madzivire**: I think it's a good idea to submit our work in this group. Once you have done your part, submit your work in this group and we work as a team to peer review the work before we compile the final draft.

[15/08, 20:00] +44 7872 680454: Ok perfect

[17/08, 13:25] +44 7547 897138: Hi everyone, could you guys check my work and give me some suggestions on the part of my assignment that I've completed?

[18/08, 08:48] +44 7872 680454: Weldone sorry been busy will have a look later today if you don't mind

[18/08, 09:14] +971 54 566 3377: Hi Asma

will check and revert.

[18/08, 09:16] **Abinel Madzivire**: Thanks Asma will check a review

[19/08, 08:49] +971 54 566 3377: Good work Asma. Great content.

[19/08, 08:50] +971 54 566 3377: Uploading mine

[19/08, 08:50] +971 54 566 3377: with out the references its 257 words.

[19/08, 09:34] +44 7547 897138: Thank you

[23/08, 17:51] **Abinel Madzivire**: Good day winning team. I did my research and came up with the attached draft. I felt like sharing the information as it might contribute a little in shaping our final presentation.

[25/08, 19:29] +44 7872 680454: Weldone everyone for your submission

[25/08, 19:31] +44 7872 680454: I can see you did everything Weldone. I previously volunteered to compile everything so I'll combine everyone's work plus my contribution and feedback to the group by Friday. And we can all go through that and add individual feedbacks and improvements .

Thanks everyone

[25/08, 19:32] +44 7872 680454: This was strong Asma

[25/08, 20:36] +44 7547 897138: Thank you

[28/08, 21:24] +44 7872 680454: Hi guys this is the final work please have a look and propose any changes or improvements. I turned the tables to images to meet the word counts. I tried to include everyone's input but 1000 words is quite limiting

[28/08, 21:24] +44 7872 680454: I haven't done a proper neat formatting yet but just have a look thank you

[29/08, 10:10] **Abinel Madzivire:** Thanks Presh for your commendable effort. I scanned through the document and to me it looks well presented. However, I will do a deep reading and share my comments/suggestions if any.

[29/08, 17:00] +44 7547 897138: Well done

[30/08, 01:57] +971 54 566 3377: Apologies. I didn't have time yet to check the work. Will see if I can reply by today or tomorrow as I am on my flight back to Dubai.

[02/09, 19:15] +971 54 566 3377: Hi guys

Apologies for the delay.

Great work, the final draft looks great.

Have you guys started working on the peer review.

[02/09, 19:16] +971 54 566 3377: Who will submit the work (Assignment 1),as only one of us needs to upload it.

[02/09, 19:17] +44 7872 680454: Hi Anooj not yet will start mine today

[02/09, 19:18] +44 7872 680454: I will submit it . I'll send the final ready copy tonight, everyone have a final look and I'll submit tomorrow

[02/09, 19:18] +44 7872 680454: Also are we supposed to include group members name in it?

[02/09, 20:54] **Abinel Madzivire:** I think that's a noble idea.

[02/09, 20:57] **Abinel Madzivire:** Thanks Precious. I read the final document and I think it was well done. Kindly share the final presentation when you are done.

[02/09, 23:07] +44 7872 680454: Turnitin score is 4%

[03/09, 05:18] **Abinel Madzivire:** That's great.

[03/09, 05:19] **Abinel Madzivire:** Thanks, Precious

[03/09, 06:42] **Abinel Madzivire:** I think we must include some information e.g author names, module title, Program, institution etc on the title page to make the paper look more professional.

[03/09, 07:53] +44 7872 680454: Ok will do that.

Can everyone send their full names please

[03/09, 08:19] +971 54 566 3377: Anooj Azad

[03/09, 08:22] **Abinel Madzivire:** Abinel Madzivire

[03/09, 08:32] +44 7547 897138: Asma Umar

[05/09, 08:05] **Abinel Madzivire:** Good day team. Are we supposed to submit the group assignment individually or only one group member is going to do it for us all? I received an email instructing me to submit two documents for the assessment 1. Group assignment

2. Peer review document.

[05/09, 08:52] +971 54 566 3377: Hi Abinel

As per the instructor, on the last seminar he mentioned that only one person from the group need to submit the group assignment while the peer review is an individual submission.

[05/09, 09:23] **Abinel Madzivire:** Thanks so much Anooj.

[05/09, 09:53] +44 7872 680454: Yes that's true I'll be submitting it today I just got very busy yesterday.

Guys don't forget to submit your peer review separately

[05/09, 15:13] +44 7872 680454: I just submitted guys Weldone everyone for your contributions it was a pleasure

[05/09, 15:14] +44 7547 897138: Thank you precious

[05/09, 16:25] **Abinel Madzivire:** Thanks Precious for your hard work

[05/09, 16:40] +44 7872 680454: Thank you too

[05/09, 21:55] +44 7547 897138: Hi, can anyone tell me what exactly we need to include in the e-portfolio?

[05/09, 21:59] **Abinel Madzivire**: All artefacts including assignments, discussions, activities and projects. Some of the required inclusions are shown in the modules.

[05/09, 22:05] +44 7547 897138: Ok thank you so much

[06/09, 00:24] +44 7547 897138: Has anyone submitted the individual peer review ?

[06/09, 00:35] +44 7872 680454: Yes I have

[06/09, 00:36] +44 7547 897138: Did you download and fill in the form and then submit it?

[06/09, 07:59] **Abinel Madzivire**: Yes. Download the form, fill in and submit.

[06/09, 09:00] +971 54 566 3377: Hi Asma download and fill the form.

[06/09, 09:54] +44 7547 897138: Ok thanks you

[06/09, 09:55] +44 7547 897138: Ok Anooj thank you

[10/09, 11:54] +44 7872 680454: Guys the grades are out check your profile. We got 74%

[10/09, 12:03] +44 7872 680454: I feel like he overjudged us considering the 1,000 words limits. There's only so much we could've done but overall good feedback to take away

[10/09, 12:11] **Abinel Madzivire**: Thanks Presh for sharing. This is good news. Thanks winning team for the hard work.

[10/09, 12:12] +44 7547 897138: Sorry but I can't see any grade on my portal?

[10/09, 12:12] +44 7872 680454: Maybe she's still taking time to upload for all

[10/09, 12:13] +44 7547 897138: Have you all checked your portal?

[10/09, 12:16] +44 7872 680454: Click the plus sign below

[10/09, 12:16] +44 7872 680454: The marks are there

[10/09, 12:17] +44 7547 897138: Ok thanks precious
